RE: **Maintenance Inspections – Addition of New Projects**

It has come to the attention of this office that not all Federal and State funded projects are being inspected. Please note that any Garvee Bond project or any new project constructed with Federal or State funds must be inspected annually. Each County should coordinate with your Division to see that these projects are added to the list to be inspected. Also note that data generated from these inspections will be very useful to justify the need for any future resurfacing program.
